ONLINE IDENTITY

Known online as **Tcroneb Hackx**

PROFESSIONAL SUMMARY

Blessing Anota, professionally known as **Tcroneb Hackx**, is a web developer and digital entrepreneur working across web development, WhatsApp bot automation, digital platforms and social-media growth solutions. His approach combines practical development with entrepreneurship: identifying a problem, building a usable platform and making technology accessible.

CORE EXPERTISE

WEB DEVELOPMENT Websites, landing pages, dashboards, online platforms and developer services.	WHATSAPP AUTOMATION Bots, automated workflows, integrations and communication tools.	SOCIAL GROWTH Affordable social-handle boosting and promotional solutions.
PRODUCT BUILDING Turning ideas into practical digital products and online services.	HOSTING & DEPLOYMENT Domains, hosting concepts, web services and deployment.	PROBLEM SOLVING Learning, experimenting, troubleshooting and sharing solutions.

OWNED & BUILT PLATFORMS

HOSTIFY.CO.ZW	Owner / Founder	Developer-focused web services helping people access domains, hosting and digital resources.
TOP.CO.ZW	Digital Platform	A growing technology and web ecosystem for digital products, developer services and affordable online solutions.
DSTV.HOSTIFY.CO.ZW	Streaming / Publisher	A platform serving streaming-related projects, advertisers and publishers.
ZIMBOX.TOP.CO.ZW	Entertainment	A drama and entertainment streaming platform promoted around an ad-free viewing experience.
TOPBOOSTZIM.CO.ZW	Social Growth	Affordable social-handle boosting and promotional services for online growth.

PROJECT CONTRIBUTIONS

STINGER.CO.ZW	Contributed to a Zimbabwe-focused AI agent project designed around useful digital assistance.
WATCHER APK — V3	Networking / scanning project contribution, with V3 referenced through decode.top.co.zw .
DEVELOPER SHARING	Shares practical coding knowledge, explores new technologies and builds tools intended to solve real problems.

WHAT YOU DESERVE IS A WEB THAT WORKS FOR YOU

From idea → design → development → deployment.

The goal is not simply to create a website. The goal is to create a digital tool that helps a person, business or community move forward through web development, hosting, automation and social growth.

SOCIAL BOOSTING — AFFORDABLE DIGITAL GROWTH

Through **TopBoostZim**, I work on accessible social-media promotion and boosting services for people and brands that want to grow their online presence. The focus is simple: affordable services, an easy online experience and tools that make digital promotion easier to access.

CERTIFICATIONS & CONTINUOUS DEVELOPMENT

Certificate holder with a practical-learning mindset. Development interests include HTML, CSS, JavaScript, backend technologies, APIs, automation, deployment and modern web platforms. Learning through IYF Zimbabwe and real-world projects has helped turn knowledge into working products.

CAREER DIRECTION

Open to web development projects, automation solutions, digital product collaborations, developer-focused partnerships and opportunities to build technology that solves real problems.
